Tech Tour Seeks 30 Most Promising Emerging British And Irish Technology Companies

The European Tech Tour has announced that the 2010 UK and Ireland Tech Tour will be held on April 27-29 in Dublin and London.

The Tech Tour will pair the most promising early and later stage growth companies with representatives from leading cross-border venture capital and global corporate firms. The funds that will be present at the Tour represent over €10 billion worth of investment capital.

Applicants can register for the Tour at http://www.techtour.com/ukie2010/how_to_register.php. The deadline for applications is 15 February 2010.

The selected 30 finalists will each have a twenty-minute slot to present their business plans to senior partners, vice presidents and CEOs from the global venture capital and technology industry, as well as service providers and academics. In addition, they will benefit from networking opportunities, local and international media exposure and potential opportunities to secure funding.
